We take a stand for women's skin.

“Before my daughter became ill I spent hundreds of thousands of dollars on skin care products and had never once looked at the label.”

- Andrea Pierce-Naymon, Founder OY-L Skincare

PUTTING AN END TO BEAUTY SECRETS

I grew up like the rest of the women of my generation. As a teenager I found skin care and cosmetics within my price range at the drug store and as I matured and my income rose, I aspired to department store brands and then luxury lines. I treasured these brands and I trusted them.

As my daughter became a teenager herself, I saw no problem with her following my example. When she began experiencing unexplained weakness, pain and discomfort, I became consumed with researching everything that went into her body. I quickly found out that much of what she (and all of us) used every day was toxic. I became determined to find a natural solution for her, for me and for every mother and daughter who would listen.

I left the fashion, style and retail world to create OY-L an all natural skin care line on a mission to provide beauty without secrets.
